

Paediatric (Blended DAY 2) 12 Hour Infant / Child First Aid Level 3

Course Overview

Ladybird First Aid Paediatric 12 Hour Infant / Child First Aid Level 3 is designed for those learners wishing to become a paediatric first aider in the workplace with a responsibility for the welfare of children.

This course meets and exceeds the requirements laid down by Ofsted, EYFS, CSSIW and Sure Start for people needing a 2 day 12 contact hour first aid course for Adult, infant and child.

All our first aid courses fully meet the UK and European Resuscitation Council Guidelines 2015 as per the HSE requirements.

Our blended training allows you to learn the theory at your pace, one to one with your instructor at a time that suits you. This course comes with 12.0 hours of CPD credits.

The content of this and all our courses has been independently certified as conforming to universally accepted Continuous Professional Development (CPD) guidelines and come with a Certified CPD Statement as well as a Certificate.

Please be advised that the classroom course has a minimum age requirement of 16. Please note this is the classroom-only part 2 of a 2-part blended course. Before taking this course, you **MUST** complete the online pro paediatric part 1 course.

To complete this blended course, you will need to register online for Pro Paediatric First Aid at www.ladybirdfirstaid.com and complete part 1 of a 2-part blended course. After completing this online course, you may contact us on 07812 164350 to book the classroom-only part 2 course and cut down on the number of days spent in the classroom.

At Ladybird First Aid we offer 'open' first aid courses where individuals can book on but we can also travel to you and carry out on-site training at your workplace or home 7 days a week.

Ongoing Skills Assessment carried out by an instructor and through written assessment.
